NOTES:

Reported data has been rounded to reflect appropriate precision in the estimate and this may cause some apparent discrepancies in totals.

Mill Head Value (MHV) is a calculation of the value of material mined, in Canadian dollars per metric tonne, less all cost following the delivery to the Crusher Pocket.

(1) Imperial holds a 30% interest in the Red Chris Property.

Red Chris Reserve/Resource is from the 2021, 43-101 report, updated to reflect current mining to January 01, 2024.

(2) Imperial holds 100% interest in the Mount Polley Property.

Mineral Reserve/Resource from the 2016 43-101 report, updated to reflect current mining to December 31, 2025 and additional exploration diamond drill data.

(3) Imperial holds a 100% interest in the Huckleberry property.

Mineral Reserve/Resource from the 2017 43-101 report, updated to reflect mining done before shutdown.

(4) Imperial holds a 100% interest in the Ruddock Creek property.

Ruddock Creek Resource is from the 2012, 43-101 report, updated to reflect 2012 drilling.
